Another year of expenditures connected with the War in the Southern States, has added some \$14,500.00 to the gross amount of our town debt, whilst the list, generally classed as *available* in resources, has been increased to the extent of nearly \$7000.00; leaving, as the result of the operations for the year, an actual nett addition to the debt of some \$7,500.00. Taking into consideration the fact that we have paid some \$11,500.00 in town bounties and expenses connected with filling our quota last fall, together with a large balance of interest against us during the year, we have no reason to feel in any way disappointed or discouraged. The debt can all be paid in a reasonable time, and no severe or intolerable burden imposed upon any of us, if we only divide it fairly in additional taxation from year to year.

The ordinary operations connected with town affairs, within the year have been remarkably fortunate in their results. The Town Farm has done \$400,00 better than last year—town pauperism away from the Farm has fallen off more than \$300-00—and the profits of the two Liquor Agencies have been about \$400 00; whilst our various roads and bridges have been taken care of at the moderate expense of but \$215 00.—The only drawbacks, and those not of a serious character, are the payment of nearly \$300 00 on a special case of damage claimed by Obed B. Quimby, which was settled by reference—and nearly double the amount of time, expenses &c., (as compared with other years,) necessarily laid out by the Selectmen in taking care to seasonably fill our quota of soldiers, procuring and paying money &c., all as directed by the town at the various meetings held within the year.

We last year raised a tax of \$6000,00, *which was not enough.* In view of the serious increase of debt within the year, and the fact that we are now making another large addition thereto, in order to fill our quota, under the last call of the President for 300,000 men, we cannot recommend a sum less than \$10,000-00 as a town tax for the year 1865. If there is to be any variation from that sum, it ought to be *larger* rather than *smaller.*

We take pleasure in once more commanding the clear, plain, and fair manner in which everything in the shape of accounts have been kept by the board of Selectmen. We found no confusion, and scarcely an error—and, although our duties involved the examination of more than *one hundred and twenty thousand dollars* of accounts, yet it has taken but one day more than in other years, when the transactions were but a fourth part as large in amount.

The trial balance on \$122,285,20 came out but \$9,83 from even, upon the first proof sheet, and that difference was quite likely an error of our own, in computation or classification.
